

Sirs,

I strongly support the efforts of K-LOVE radio programing in my community. It projects a calming, unifying message of hope and love to its listeners. This is a needed message in our world today. I would not want its message to end just because it encompasses many different communities across our great land; indeed, I believe that K-Love stations provide a valuable service to our nation as a whole. I hope that you will be able to ensure that such wide-scope broadcasting systems can remain on the air; K-Love proves its support base as it is fully funded by its listeners, I think that it is a remarkable service.

Thank you,

Carol L Weld
